

VEINDOCTORS GROUP

WHAT IS PHLEBOLOGY?

Phlebology is the branch of medical science concerned with the anatomy and diseases of the veins.

This includes:

- Spider veins
- Varicose veins
- Venous ulcers
- Pelvic veins
- Pelvic congestion & varicoceles
- Haemorrhoidal veins
- Lipoedema (sub-specialised surgery)
- Lymphoedema

Treatments with Vein Doctors Group are performed by doctors who have received specialised training by the Australasian College of Phlebology

VEIN DOCTORS PATIENT RESULTS

In trained hands, modern varicose vein treatment has become a superior procedure to surgical stripping.

ADVANTAGES OF TREATMENT WITH VDG

- ✓ Outpatient and hospital treatments available
- ✓ Anaesthetic options available for complicated cases or needle phobias (private health insurance rebates apply)
- ✓ Walk-in, walk-out procedures
- ✓ Return to normal duties
- ✓ High safety profile and low complications rate
- ✓ Avoid surgical scarring associated with vein stripping procedures
- ✓ High patient satisfaction.

FEES - PAYMENTS & REBATES

- ✓ Medicare rebates are available for most outpatient treatments
- ✓ Inpatient facilities are suited for more complicated cases & private health insurance rebates are available.
